The
BLOCKHOUSE

A History of
The University of the City of Toledo
for
THE SCHOOL YEAR
1921-1922

Before you read
Any farther
We want
You
To look
At the next
Page
And know
Who to blame
For what
You don't
Like.
But—
Don't run to
Professor Troxell.
He's there 'cause we
Like him
And because
He's helped us
More
Than we can
Thank him
For.
—C. E. B. and A. G. P.

CHAS. H. COLEMAN

Foreword

WITHOUT the generous co-operation of the entire student body the publication of this book would have been impossible. The undertaking was a new field for all of the staff. This greatly increased the difficulty of the task. And so the Editorial Staff wishes to express their keen appreciation for your efforts in making the book a complete record of the year's activities.

An effort has been made to include every activity of the University between the covers of this book. We have thrown in a joke here and there because the humor of the American College student is a byword throughout the world. We have included some of the tragedies of the year for in the passing time the humor of these situations springs foremost. The serious and frivolous have been put side by side that this might be a true record of the most momentous year in the annals of the University. Our work is done. With this short greeting we submit our work to you.

THE STAFF.

Dedication

TO DR. A. MONROE STOWE
FOR THE ENERGY • DILIGENCE • AND
CO-OPERATION WITH WHICH HE HAS
GUIDED THE GROWTH OF OUR UNI-
VERSITY • AND FOR THE HEART-FELT
EFFORTS HE HAS EXTENDED TO MAKE
IT AN INSTITUTION OF WHICH TO BE
PROUD • THIS FIRST EDITION OF THE
“BLOCKHOUSE” IS SINCERELY DEDICATED

In Memoriam

WILLIAM H. TUCKER

First President of the Board of Trustees

THIS PAGE OF THE FIRST "BLOCKHOUSE"
IS RESPECTFULLY DEDICATED

"Through him it has been possible for us to live fuller lives. In memory of him we pledge ourselves to live our lives with a deeper appreciation of our opportunities. A heritage of good citizens shall be a monument to him."

In Memoriam
JAMES F. TRACY
MARCH 11, 1922

History of the Toledo University

In 1872 the "Toledo University of Arts and Trades" was endowed by Jesup W. Scott.

The conditions on which Mr. Scott gave the gift of 160 acres of land, located between Nebraska and Hill Avenues, was that that land be used as an institution for the promotion of knowledge of the arts and sciences.

"Toledo University" was incorporated in 1875 as a school of design, and was conducted as such until 1886. In 1884 the entire property was transferred to the city of Toledo by the trustees, and the city adopted an ordinance establishing the "Municipal University of Toledo".

In 1903 the manual training school was taken over by the city as Woodward Technical High School. In 1904 the College of Pharmacy was established. In 1909 the University was reorganized and the College of Arts and Sciences, Medicine, and Law were established. One year later the College of Industrial Science was started. In 1914 was organized the College of Commerce and Business, with Teacher Training Work established in 1916.

Instruction was carried on by both public and private subscription until March 18, 1884, when the Toledo Council appropriated \$2,500. This appropriation has grown until in 1921 the city gave \$174,850.

In the beginning, the head of the instructional staff was known as superintendent, and the students numbered less than 100. In 1921-1922 the total attendance was 1,369, making this institution rank third in attendance in Ohio.

The first Board of University Trustees were: W. H. Tucker, Judge C. M. Milroy, Albert A. Froehlich, Attorney Ben Johnson, Henry Streetman, James Nye, and J. Gazzam Mackenzie. From 1909 to 1910 Jerome H. Raymond was president of the institution. Charles A. Cockayne served in that capacity 1910-1914. President A. M. Stowe has held the position of president since 1914.

From its inception until 1884 the official title of the institution was "Toledo University". In 1884 the name was changed to the "Univer-

sity of Arts and Trades''. In 1921 it was again changed to read "The University of the City of Toledo".

Night classes in the University were established at the same time as were the day classes. The first building used was the Toledo Medical College at Cherry and Page Streets. Later the Scott Manual Training School was under the joint control of the Board of Education and the University.

When the Medical College building became inadequate, quarters were secured in the Meredith building at Jefferson and Michigan Streets.

An exchange of the equipment in the Manual Training school was made with the Board of Education for \$25,000 and the Illinois street school.

In 1921, classes in Sciences were removed to the Science building on the campus on the University Boulevard. In September, 1922, all day classes will be held in the same building, with the late afternoon and evening classes still being carried on in the Illinois street building.

Golden and the Blue

Toledo "U" our proudest toast.
We'll never let thy banner fall,
The "Gold and Blue" shall be our boast,
We'll tell thy aims to one and all.

For knowledge, culture and the best
That God hath given to the earth
You stand, and so, secure we rest
Nor ever doubt thy present worth.

We know that barren though we be,
Of thoughts, the future race to give,
Your light will shine to make it see
The way Americans should live.

Toledo "U", we'll only say
We're here to help the cause along,
We'll sing your praises every day,
By deeds we'll prove you never wrong.

And still our thoughts will oft return
To life in old Toledo "U".
For college days our hearts will yearn
And for the Golden and the Blue.

In time of need, send forth a call—
We'll answer with our very best,
We'll answer one, we'll answer all,
And from thy cause we'll never rest.

—Augustus W. Trettien.

Board of Trustees

President—Henry M. Streetman, President Alexander Black Cloak Co.
J. G. Mackenzie, Vice-Pres. and Manager Bonner Brush Co.
B. M. Godwin, Curator, Toledo Museum of Art.

A. MONROE STOWE, A. M., Ph. D.,

Professor of Education,
College of Arts and Sciences,
and Education.

Ph. B., 1903, A. M., 1904, Northwestern
University; A. M., Harvard University, 1905;
Ph. D., Columbia University, 1909.

DAVID W. HENRY, A. B., A. M.,

Associate Professor of Education.

Massachusetts State Normal Diploma,
State Normal School, Hyannis, Mass., 1909;
A. B., Collegiate Department, State Normal
School, Emporia, Kansas, 1911; graduate
student at Cornell University, 1912; A. M.,
Columbia University, 1915; Supervisor's Di-
ploma, Teachers' College, Columbia Univer-
sity, 1916.

GLENN D. BRADLEY, A. M., Ph. D.,

Professor of History.

A. B., University of Michigan, 1907; A.
M., University of Michigan, 1913; Ph. D.,
University of Michigan, 1915.

LORAIN FORTNEY, Ph. D., LL. B.,
Professor of Economics,
Summer Sessions.

A. B. and LL. B., West Virginia University, 1900; Ph. D., University of Pittsburgh, 1903; graduate student, University of Chicago, seven quarters, 1910-1916.

O. GARFIELD JONES, B. S., Ph. D.,
Professor of Political Science.

B. S., Ohio Wesleyan University, 1912;
Ph. D., California University, 1919.

C. J. BUSHNELL, Ph. B., Ph. D.,
Professor of Social Sciences,
College of Arts and Sciences,
and Education.
Ph. B., University of Chicago, 1898; Ph.
D., University of Chicago, 1901.

JOHN W. DOWD, A. B., A. M., LL. D.,
Associate Professor of History and
Social Sciences.
A. B., Ohio University, 1869; A. M., same,
1872; LL. D., same, 1903.

FRANK U. QUILLIN, A. B., A. M., Ph. D.
Professor of Educational Sociology,
Summer Sessions.
A. B., Ohio Wesleyan University, 1903;
A. M., Harvard University, 1905; Ph. D.,
University of Michigan, 1910.

HARRY SYLVESTER WILL, Ph. D.,
Assistant Professor of Sociology.
B. A., 1910; A. M., 1916; Ph. D., 1918;
Ohio State University.

HELEN M. ALVORD, A. B.,
Instructor in Sociology.
A. B., Oberlin, 1919.

JUNE PURCELL GUILD,
Instructor in Sociology.
LL. B., Ohio State, 1910.

C. F. WOLFE,
Assistant in Political Science;
Part Time Instructor.

Division of Modern Languages, Literature and Philosophy

E. E. TROXELL, A. B.,
Professor of Journalism and
Business English,
College of Arts and Sciences,
and Education.
A. B., De Pauw University, 1912.

ROBERT NAYLOR WHITEFORD,
A. B., A. M., Ph. D.,
Professor of English Literature,
College of Arts and Sciences;
Director of Graduate Study.

A. B., Wabash College, 1890; graduate student for two years in English, German and French, Wabash College; A. M., Wabash College, 1892; graduate student in English, German and French, Johns Hopkins University, Oct. 1, 1892, to June, 1893; Ph. D. (in course), Wabash College, 1893.

CARL HOLLIDAY, M. A., Ph. D., Litt. D.,
Professor of American Language and
Literature,

College of Arts and Sciences;
Director of Day Sessions, and Dean of
the College of Arts and Sciences.

B. S., University of Tennessee, 1910; M. S., same, 1913; Honorary Litt. D., Campbell College, 1915; graduate student in English, University of Chicago, 1902; University of Tennessee, 1902-1903; University of Virginia, 1906-1907; Fellow in English, University of Virginia, 1906-1907.

FRANK EDMOND NURSE,
A. B., B. D., Ph. D.,
Professor of Modern Languages,
College of Arts and Sciences.
A. B., Dixon College, 1898; B. D., McCormick Seminary, 1904; Ph. D., Heidelberg, Germany, 1908.

KATHERINE EASLEY, A. B., A. M.,
Assistant Professor of English,
College of Arts and Sciences;
Dean of Women.
A. B., Indiana University, 1912; A. M., Indiana University, 1916.

FRANK J. PAVLICEK, A. B.,
Associate Professor of English,
College of Arts and Sciences,
and Engineering.
A. B., Ohio State University, 1901; graduate student, summer sessions, University of Chicago, 1905-1911; graduate student, summer session, University of Michigan, 1913.

JULIAN CARBALLO,

C. E., LL. B., A. B.,

Instructor in Spanish.

C. E., Havana University, Havana, Cuba, 1914; LL. B., B. A., Instituto de Matanzas, 1910 (fall); Surveyor, Instituto de Matanzas, 1910 (June).

THEOPHILE DAMBAC, B. L.,

Assistant Professor of French.

Bachelier es Lettres (first part), Lycée de Belfort, University of Besançon, France, 1889; Bachelier es Lettres (second part), University of Grenoble, 1890; member of the National Society of French Professors in America.

FELIPE MOLINA, B. L.,

Associate Professor of Spanish.

B. L., Instituto Nacional de Oriente of Nicaragua, 1899.

Division of Applied Science

OSCAR W. IRVIN, B. S., M. S.,
Professor of Physics,
College of Arts and Sciences,
and Engineering;
Dean of Men.

B. S., State University of Kentucky, 1910;
M. S., University of Kentucky, 1918; graduate
student at State University of Kentucky,
1911-1912 and 1917-1918.

H. H. M. BOWMAN, M. Sc., Ph. D.,
Professor of Biology.

B. S., Franklin and Marshall College, 1913;
M. Sc., Franklin and Marshall College, 1914;
Ph. D., University of Pennsylvania, 1917.

HENRY R. KREIDER, A. B., A. M., Ph. D.,
Professor of Chemistry.

A. B., Franklin and Marshall, 1898; A. M.,
Franklin and Marshall, 1901; Ph. D., Johns
Hopkins University, 1910.

AUGUSTUS W. TRETTIEN, A. B., Ph. D.,
Professor of Psychology,
College of Arts and Sciences,
and Education.

State Normal School Diploma, Oshkosh,
Wisconsin, 1894; B. L., University of Wis-
consin, 1899; Ph. D., Clark University, 1904.

WALTER F. BROWN,
Associate Professor in
Electrical Engineering.

Graduate, School of Science and Tech-
nology, Pratt Institute, 1812.

JOHN BRANDEBERRY, B. S., A. M.,
Associate Professor of Mathematics.

B. S., Mount Union College, Alliance,
Ohio, 1913; M. A., Ohio State University,
1915.

WILLIAM McKENDRIE REED, Ph. G.,
 Professor of Chemistry,
 College of Arts and Sciences,
 and Pharmacy;
 Dean of the College of Pharmacy.
 Ph. G., Ohio Northwestern University,
 1898; Ph. C., Ohio Northern University, 1899.

L. C. SCOTT, B. M. E.,
 Associate Professor of Industrial Education,
 College of Engineering.
 B. M. E., Highland Park College, 1902.

GUY E. VAN SICKLE, A. B., A. M.,
 Associate Professor of Chemistry,
 College of Arts and Sciences, and
 Engineering and Pharmacy.
 A. B., Ohio State University, 1909; A. M.,
 Ohio State University, 1911; graduate stu-
 dent in Chemistry, Ohio State University,
 1911-1912.

C. H. WATTS, A. B.,
Assistant Professor of Accountancy.
A. B., University of Illinois, 1913.

W. SHERMAN SMITH Jr., B. S. in C. E.,
Instructor in Civil Engineering.
B. S. in C. E., Purdue University, 1913.

EDMUND KLINE, A. B., A. M.,
Associate Professor of Bacteriology,
College of Arts and Sciences.
A. B., Franklin and Marshall School, 1914;
A. M., University of Pennsylvania, 1916.

I. F. ZAROBKY

Professor, Mechanical Drawing
Associate Member of The American Society of Mechanical Engineers.

GEORGE FRAMPTON,
Professor in Industrial Science.

J. L. RICHMOND.
A. M., Browne University, 1883; M. D.,
New York University, 1884.

PARK L. MYERS, M. D.
M. D., Ohio Medical College, 1879.

Senior Editorial

Classes come and go. After graduation no class is remembered long as a group except by its members. Others may at times mention some incident connected with one class or another, but unless they were members of the class mentioned it means little to them and is soon forgotten. But to a member of the class it is different. Any little thing, no matter how remotely connected with his class, brings up floods of memories and he lives his college life over once more. He remembers how he worked, the time he put in studying for exams, the reports he had to make, the theses he wrote. How hard he thought he labored then, but how little it really was that he was called upon to do, when he compares it with things he has had to do since. Then the lighter side comes to him, the recollections of the many happy hours spent in company with his classmates, when study was forgotten, and everyone was bent on pleasure. He recalls with what a feeling of elation he stepped forward in his cap and gown to receive his long desired sheepskin. But this last memory brings an end to his reminiscence, for it is one of commencement, and commencement was the end of his college life. Thus he will live his college days over and over again and his class will ever keep alive in his memory.

So will the Class of '22 continue to exist, and many are the incidents, the memories of which will further this existence. It began while the World War was still raging and counts among its members some of the last of the old "S. A. T. C." It is its good fortune to be the product of a University which is not very old and whose traditions are, for the greater part, still in the making. The manner in which work is done early in the construction of any thing is the factor which makes or mars that thing. It is the same with a growing university. Its earlier classes are the factors which determine how great that university will be. The Class of '22 is one of the earlier ones of the University of the City of Toledo, and its members realize that they owe much to the University. Besides the amount it has added to their knowledge it has given them greater things—broader views of life in general, and friends whom they would not have had save for it. They hope that they have helped to build a portion of a very firm foundation upon which their Alma Mater will some day grow to be a truly great university—a wonderful old school.

Sylvia Brady Holliday Scholarship

The Sylvia Brady Holliday Scholarships were given by Dr. Holliday in memory of his wife, Sylvia Brady Holliday, the first Dean of Women at Toledo University.

They are awarded to the two students chosen by the faculty as having done the most for the University during the year.

Last year they were awarded to Ruth Heater and Charles Beard.

Ruth Heater received her scholarship for her work as editor of the Teaser. She was an active worker on the Carnival committee and was a charter member of the Blackfriars.

Charles Beard organized the Dramatic Association and the Blackfriars, the honorary Dramatic organization. He directed and played a part in "A Pair of Sixes," the first presentation given by the Blackfriars for the benefit of the Woman's Association. He played on the Varsity basketball team and served on the Teaser staff. He and George Reading organized the first tennis team.

Our Alma Mater

I.

We stand, Toledo "U", thy stalwart sons,
As strong as old Lake Erie's wind tossed waves,
As constant as the stately Maumee runs,
We'll fight to hold the paths your glory paves.

Chorus.

Toledo "U", Toledo "U",
To thee we raise our song with heart and voice.
Toledo "U", Toledo "U",
In thy unsullied glory we rejoice.

II.

Oh, swiftly pass the years we tread thy halls,
Too short the days beneath the blue and gold;
Then country, home or outside duty calls,
But still we'll keep T. U.'s traditions old.

III.

You early taught us how to play the game,
From you we learned to fight the battle clean;
And if, in years to come, we're marked with fame,
We'll ne'er forget what T. U.'s standard means.

JUNIORS

Junior Editorial

The present list in the book of the recording demons, of the crimes, misdemeanors and atrocities of that band of fairly hard-shelled criminals known to the gentle, oh, yes, very unquestionably gentle reader, as the Class of '23, is the largest in the history of the school.

After being discharged from various reform schools, the acolytes in crime convened in this institution, banded themselves together, pursued their criminal practices, and let their ingenuity evolve what it could in whatever way it might along the lines of heinous endeavor.

"We know not," so saith the demons, "whether or no the spirit of good prevailed among them at the beginning of September, '19, but if it did it was utterly routed in repulsing the disgraceful attack upon the newcomers made by the Purely Pugilistic Persons of '22. Repelling this unwarranted assumption of authority in dictatorship, and enjoying the feeling of freedom from oppression, the '23ers had a taste of power not soon to be forgotten and often longed for again.

Carrying this well in mind, and often pondering the chances of impressing said power upon the next year's initiates, a mild fling of independence would take the form of an unprepared class assignment or a haphazard cut. These methods were felt to adequately express the contempt for all repression and restrictive dominance.

June came and with it the drudgery of jobs or empty vacations, but September brought the gang together again, this time with a vengeance to fulfill. And so it happened that murder was only barely avoided and cheek slapping and hair pulling were called in to silence the uproarious Frosh of '24 and assert the assertiveness of them of '23.

Silence was for quite some while. So completely, in fact, that a dance by and for Sophs was completely unmolested and it is whispered, but no one knows what, deviltry was pulled off.

The Carnival was a terror for men of '23. The cops were so darn friendly, most suspiciously so, in fact. Several well known criminals took refuge in the cellar of the U. Two cops lured there never returned.

After that June a number of the membership were transferred to other institutions, to remove them from disturbing influences, it is generally supposed.

Subjection of some of the gang to hard labor during the summer of '21 brought them back with renewed energy for the deeds so dark to be accomplished in this year. Without the missing spirits the personnel was much changed, but new have come to take the places of the old and the gang galavants gloriously on.

The much discussed J Hop has been the most sensational attempt of the year in the line of getaway and nerve, both essential to a good holdup job.

The work of the members in this year's Carnival also displayed the talent for second story work and staging of riots which may well be expected of so enterprising a clique.

It is gravely feared that one more year of freedom is all that is left this notorious group of kidnapers, embezzlers, and accomplished booksnatchers. Before another year rolls by sufficient evidence will probably have been collected by the slinking city sleuths to put the majority of the gang in the jug for indefinite terms, and some poor, clever things will never more return to the days of active rebellion, but will recall, to their grandchildren's terror, the days of blood-curdling daring spent by the Class of '23 in Toledo U.

Rogues' Gallery

GEORGE READING

The elected captain of the gang and one of the most active in plotting the nefarious work pulled off at the Carnival. Abduction is his recreation.

MARIE WEINGARDT

Murder in the fourth dimension, and asphyxiation by calculus have not diminished her ruling passion—crime in all its gruesome forms. Luck and her genius for disguise are all that have saved her from apprehension and the electric chair.

DANIEL GROSS

The one member of the gang who wants to be a detective when he grows up. He is now going through the first-hand information stage in his training for his chosen profession, in which he will doubtless be a great success.

ROSE McLAUGHLIN

A terror at jiu-jitsu and always makes a getaway that is impossible to trace. She could walk off with the U library if need arose.

MIRIAM DEHNART

First offense was contempt of court; went from bad to worse; indicted for complicity in the recent arson case, the burning of the Science Building.

GEORGE WECHTEL

This second story worker of universal distinction has had many flattering offers from other gangs, but has chosen to remain at T. U. because he feels that the congenial atmosphere and pleasant companions he finds here are a great help to him in raising his art to the plane to which he aspires.

ANITA RUPPEL

Particularly adept at carrying concealed weapons, which, as we all know, has become one of the rarer arts. She possesses and is expert in the use of the deadly hairnet.

W. C. HANSON

This man will have to be watched as rumor says he plans to start a crime school in the near future. He has had intensive training at Bowling Green, but it wasn't intensive enough so he came to T. U.

LOUISE MASTEN

Figured in seven divorce cases and nine times has been sued for alienation of affections, a line in which she has never had nor needed any instruction.

RUTH BURGIE

Usually found in a dark corner of the lab concocting some new and diabolical explosive to be used in the operations of the gang.

CHARLES E. BEARD

Has done time in several penal institutions. Slick crook and hard to get the evidence on him. Published a criminal journal this year in connivance with an older and more hardened forger.

CHRISTEL HISS

Probably one of the most heartless crooks around the institution. Clever bootlegger and pretty fair at smuggling. Dabbles in marked cards when other lines are slow.

GORDON SKILLITER

Began his career when quite young by stealing cookies from his brother, and the practice gained then is useful to him now in stealing bases.

HILDRETH BIDDLE GRAVES

One of the cleverest dips developed in recent years. It is said that she even makes her victims like the process. Her appearance is innocent enough, but deceptive.

ROBERT SKILLITER

Tried to set his brother a good example, but gave it up as a bad job and is now running him a good race for police court records.

ALVIN SEELIG

The accomplished bank bandit of the gang has a long record of successful midnight raids on the hiding places of wealth. He boasts he will never be outwitted by any member of the city sleuthery.

HELEN FORTNEY

Notorious worker for the interests of the gang; apprehended on a charge of using the U. S. mails to defraud, which charge will probably be proven without difficulty, using the evidence found in her locker.

ALFRED WAGERS

For two years he has directed the financial policy of the Teaser and lured many an advertiser into his toils, from which, needless to say, they emerge poorer but no wiser.

HELEN STEWART

Consumed by an ambition to make her mark in criminal circles, she contemplates transferring her activities to Chicago, which she believes has never been blessed with a real honest-to-badness crook.

MONROE PAUL MILLER

RUTH HEATER

There is no crime of which she has not been accused. She promises to invent some new ones to relieve the monotony if someone does not start something soon. Unbreakable alibis are her feature.

CARL R. BRAND

Raising checks is his usual practice, though embezzlement is not out of his line. The turn for which he is now wanted is the erection of unstable and insecure scaffolding at the Carnival, causing the maiming of hundreds when it fell.

ELLA OUTERBRIDGE

Delicate slander and blackmail form the basis of her work and with some practice should develop it into a really paying profession.

PHILIP SCOTT GIBBS

Dangerous because he can be counted on to support any crime which is unusual. In his day he has participated in most of the crimes committed by any of the gang, though he claims he has a sneaking preference for libel and the more subtle forms of insult by the press.

HERBERT SITZENSTOCK

Auto stealing has a strong hold on him and in spite of many pleas that he abandon it for some less popular form of crime, he refuses to give it up, saying it has become a part of his life.

ROBERT MEFFLEY

Highway robbery is his specialty. He is known to have headquarters in the inferior regions, yclept "The College Cave". Obtaining money under false pretenses, it may be called by the less charitable.

RUTH DALTON

A slightly western accent distinguishes all her activities, which have been varied. Kansas City was done by her Second Ponzi scheme. Now thought to be robbing slot machines.

RAY FRALICK

Kidnapping and holding the sons and daughters of the rich for enormous ransoms is a drop in the bucket of the man's iniquity. Mendacious absence excuses are his everyday output.

JEANNETTE NUNEVILLER

Is introducing her own radical ideas on crime and hopes to have quite a number of converts before the year is up. The old sandbag method is the foundation of her system.

ALBERT FORSYTHE

Suspected as the fence for the gang, although he has never been caught with the goods. Takes great pride in his ability to elude strong arm men.

LORNA HEINL

Not a team worker. Gets results on her own. Lake Erie once gave her a course in her specialty, but she has gone much farther than her instructors intended.

ESTHER MILLER

Assault and battery with intent to rob, and using strong language in public are the charges to date against this ambitious person.

CLYDE KIKER

Plays around with the politicians. Heaven only knows how he may contaminate them.

VERDA PELTON

Tried treason, but found the sentence likely to be a party "At Dawning", so is now working at shoplifting.

J. C. ANDERSON

Previous history fair, no record of any major crime before 1919. Accessory in the activities of the Junior gang

HAVEN F. DOANE

Escaped from Michigan pen, to which he was committed on a charge of second degree murder. He is just a little unbalanced on the subject of his guilt in this case and refuses to say anything about it to anyone.

THE ENGINEERS.

History of the Class of '24

BY A SOPHOMORE

September, 1921, found the Sophomores welcoming fellow students at Toledo University. Not only did the Class of '24 know themselves that they existed in all forms of school activities, but they made all Toledo "U" sit up and take notice.

The first week of school the Sophomores were tormented by small children persisting in coming in by the front door. However, the number of offenders was greatly reduced by means of the horse-trough.

But the first real battle with the Freshmen was staged at the "U" Farm, September 29. The Frosh-Soph scrap was the occasion. When the Freshmen arrived on the field a large "24" flag greeted them from the top of the flag pole. Frosh after Frosh tried to climb the pole, but each time met with failure as grease had been liberally applied beforehand. The scrap was an open field affair. The Sophs proved the victors as they allowed only two saw-dust bags to be carried over the Frosh's line. Hot dogs, twisters, and coffee were served to the badly mutilated participants. Also the "fair sex" stood in line for their share of the food. In the afternoon everyone returned to the Alma Mater to dance.

Big Soph meeting????

Be careful, Freshmen, something is in the air!!!!

It was on Nov. 29 that unsuspecting Frosh girls were led up the stairs to their doom, by the Soph girls of '24. Lard!! More Lard!!! Flour—iodine and paint. My—Oh, My!—such fresh Sophs.

The undergraduates decided that the Varsity boys needed football blankets. On Dec. 2 the Sophomores helped put across Tag Day.

All aboard—for the Frosh-Soph football game. The Freshmen came close to the Sophomore's goal line, but when the critical time came for the men of '24 to hold, hold they did. And the game ended 0-0.

Hush!! Hush!! The secret is out. The Sophomores on December 9 had a dance for their elders, that is for the Juniors and Seniors.

All the Sophomores work hard to make "The College Carnival" a wonderful success.

Sophomores have another dance. All had a "heavenly" time.

In all forms of athletics the men and girls of '24 have taken leading roles. The Varsity football and basketball teams would not have passed such successful seasons were it not for their Sophomore stars.

In the literary and social events the Sophomore Class can be said to be "right there".

So, after all, is it any wonder that we look forward to achievements still greater from the Class of '24 in the next two years at Toledo U?

The Soph-Frosh Scrap

The title should really be in the plural for those who saw any of the preliminaries are positive that they were just as hair-raising as the main event, if they were not so bloody.

The fight really started on Wednesday night when the Freshmen kidnapped three of the Sophomores and took them to Eugene Overmier's home. There, trussed up in ropes, chains and sufficient other impediments to insure their safe keeping the Sophs spent an uncomfortable and unhappy night. In the morning they sounded an alarm by means of the telephone. In ten minutes the street was jammed with Soph autos. But try as hard as they might the Overmeier castle was impregnable. Finally the strategians put their heads together. Bingo! The problem was solved. They called the detective bureau and told the chief that three men were being detained against their will. It was only a matter of a few moments before a police Marmou with a gang that looked like a vice squad whisked up Boalt Street and released the prisoners.

For the next few minutes rumors were as thick as on November 11, 1918. A dusty little Ford tore up the street with word that the Frosh were assembling at Detroit and Bancroft. Howling the howl of the oppressed, the dusty Ford in the lead, the Sophs mounted their upholstered steeds and were off in a cloud of gas odors.

At the Court House another tin Revere dashed up with the word that the Frosh had moved their heavy artillery to the front line trenches on Twenty-first Street and Monroe. The long conclave of Soph War Horses came to a halt and a council was held on the Court House lawn. It was decided that the party should split. One machineful went out to the Farm to raise the Soph standard on the flag pole and then grease the pole. Two machines full went to the University Building at Eleventh and Illinois to pick up any stray Frosh, while the rest scoured the streets with the same end in view.

(Continued on page 62)

At the University the next scrimmage took place. The two machines detailed over there, drew to a halt in front of the building just in time to meet the entire Frosh class. With a shout and a groan the two groups met. The battle was short and sweet. Short for the Sophs and sweet for the Frosh. The upper classmen were outnumbered and beaten. Then the Frosh started the joyful triumphant march to the horse trough with their still kicking and biting captives. About twenty feet from the trough the Sophs, under the rallying shouts of Burton Ford, made their last stand.

But it was sufficient. During the few moments of hot, fierce struggle the Soph replacements arrived and the Frosh took to their heels in the general direction of their machines. Had it not been for that last stand the Sophs would probably have had to throw up their sponge. But like the experienced soldiers they were, they realized that the tide had been turned and the morale of their opponents broken. The wounded and winded were helped into their machines and the entire class headed for the Farm. The procession was slow. The chug of the un-muffled motors kept perfect tune for the chanting of the funeral dirge directed at the Frosh class.

Once at the Farm the scrap was a repetition of previous years. The Frosh made a frantic, but unsuccessful attempt to remove the Soph flag. Then the two classes squared off in their respective corners, the bags were put in position, and the rules of the contest read by George Palmer, president of the student body.

The Frosh, in order to win, were required to drag all five of the sawdust filled bags over their goal line. The Soph were present to hamper the Frosh as much as possible.

Palmer stepped back. The whistle blew. The fight was on.

In thirty seconds what had been two rows of neatly dressed, clean-shaven men was a seething, struggling mass of breathless and perspiring humanity. With an utter disregard for each other's feelings that bordered on the criminal, the men were biting, kicking, pulling, and cussing. After two minutes the fighters were so covered with the dust and grime of the field, it was impossible to tell which belonged to which.

The minutes wore on slowly and it seemed as though the Frosh would never get a bag to the line. Suddenly some bright yearling dis-

(Continued on page 64)

Mostly
Sophs

covered the reason. It was Jim Pierce. The big fellow was all over. Every time a bag was in danger Jim was there to carry it back ten yards. By piling ten men on him and shackling his feet with a heavy chain, the Freshmen were at last enabled to get him out of the scrap long enough to get one bag over. Then someone filed the shackles. With three men on each leg Jim wandered over to the nearest bag and nonchalantly threw man after man out of the fight. Finally eight men were detailed from the Frosh class to hold the big boy.

Thus the first year men were enabled to carry their second bag over the line. But that was the last. By this time the casualties were rapidly piling up. Strewn about the field, completely out of wind, were groups of two, one Frosh and one Soph, too tired to move but clutching each other tightly and glaring at each other with all the inborn hatred of arts students for work.

In four minutes the whistle blew and it was over. The Sophs were declared winners. The panting, shirtless, breathless warriors retired to the showers and fought it all over again under the cooling water. All of the wounded recovered in time to join the rush for hot dogs and java, and listen to the cooing solicitations of the co-eds. All the enmities and hatreds of the morning were forgotten in the dance that followed at the Administration Building.

History of the Class of '25

BY A FRESHMAN

The year 1921-22 opened September 12th with the largest and most progressive Freshman class ever enrolled at Toledo University, outnumbering the Sophomores about 2 to 1.

The first step taken towards organization was the election of officers. David Roscoe was chosen president.

When the haughty Sophs first caught sight of the capable Frosh Army, they realized what a task they would have to protect the sacred traditions of the school.

And it was not long before they had a chance to prove their ability. For the Frosh soon began a series of attacks on the forbidden front door.

These battles were only preliminary scrimmages when compared to the Frosh-Soph Scrap held at the University Farm. Although the Freshmen lost, they gave their opponents the scare of their lives by pushing two of the five sand bags across the goal. After a picnic lunch at the Farm everyone returned to the University Auditorium to dance.

With the defeat in the Bag Rush came the arm bands and caps. But their existence was short. The attempt made by the Sophomore girls to subdue the underclass co-eds only served to decide the battle in favor of the Freshmen.

In athletics they made a position worth mention by tying the Sophs 0-0 in football and beating the Senior college 14-2 in basketball. Nine of the underclassmen were elected to the Varsity Club for work done in athletics. Moreover the Freshmen made just as good a showing in every other phase of college life. They took part in all the activities and did everything in their power to further the interests of the University. The Freshmen of the organizations were quite invaluable in putting over the College Carnival on March 24 and 25. They wrote a great deal of the publicity articles and had charge of distributing the Carnival posters.

The Freshman Victory Dance given at the Science Building on November 11, proved that the class was on a par with all the other

classes in a social way. The dance was given in honor of the upper-classmen. Despite the playful snowstorm which visited us on Armistice Day the dance was well attended.

The second social affair attempted by the Frosh was a Hop given at the Collingwood March 10th. True to all expectations it proved as delightful an affair as the Victory Dance. By these two enterprises the Freshmen have demonstrated that they know what goes to make up a successful dance.

The influence of this Freshman class on our Alma Mater was felt by all. The greatness of this class will always be felt as they advance and take their place on the rounds higher up on the ladder. Truth has its own reward. This class might boast of its greatness, but it prefers the truth, knowing that it is mighty and will prevail. They believe in giving merit where merit is due, that is, to the Class of '25—the class which, by their example, scholarship and interests in the University, made themselves second to no other class that has ever entered the University of the City of Toledo.

Alumni

An organization of the Alumni of the University of Toledo was made at a meeting of former students held Monday, December 26.

Samuel Shinbach acted as chairman of the meeting.

Officers were elected, who were also chosen to serve as a committee to draft a constitution for the organization.

There had been much agitation from time to time to form a strong organization among Toledo U former students, both those who have graduated from the University, and those who have received their degrees from other institutions.

Nothing had developed, however, until the meeting of former students called last December.

It is hoped that a definite policy will be adopted that will accomplish a definite aim in the furthering of the best interests of Toledo U.

Personals

Norman Beck, '20, has survived the torturous punishment meted out to aspiring members of Alpha Sigma Phi fraternity at Ohio State, and is now a full-fledged frater of that organization. Norm was engaged in numerous undergraduate activities while at University of Toledo, among which were the presidency of the Sophomore class, football, basketball and member of the Student Council. Indications point to his selection as a guard on the Scarlet and Gray quintet this year.

Norman Beck began his career at the University as President of the Freshman Class. He was Treasurer of the Student Council and played basketball and football during his two years here.

Ruth Nuneviller was the second editor of The Teaser.

Numerous alumni now at Ohio State University have been initiated into fraternities. Emerson Gill, '20, became a member of Phi Kappa Psi; Ted Thal was taken into Sigma Alpha Mu; Hyatt Berry joined Alpha Tau Omega, and Arnold Nopper, '21, Delta Chi.

Wilford Robison was President of the Student Council the first semester of the school year of 1920. He was also Secretary of the Y. M. C. A. that year.

Carl Ecker, who received his diploma here last year, is a member of the Musical clubs at Massachusetts Institute of Technology, and participated in their tour through New York and Ohio during the Christmas recess. He is also a member of Lambda Chi Alpha fraternity.

Sam Shinbach, General Advisor of the University. Under this title we might mention that he was President of the Student Council.

Helene Boughton was on The Teaser Staff and was Treasurer of the Woman's Association.

John Cauffiel is at Carnegie Tech, laboring hard and writing letters home.

Amy Wright has returned to Toledo after receiving her Master's degree at Ohio State. She is now teaching school in this city.

William Van Gorder is now employed in an East Side banking house. Come over and see us, Bill.

Biannca Thomas is now attending Western Reserve University.

Aurelia Quinn has returned to Toledo and is now attending Toledo University.

Louise Brunson is teaching ward school in the city.

Arnold Nopper is now attending Ohio State University. Arnold intends to receive his degree in Engineering there.

Another "U" alumnus closely identified with Toledo politics is DeWitt Fisher, secretary to former Mayor Schreiber. He ran a close third in the contest for judge of the Municipal Court. Fisher, a law graduate, was defeated by the head of Toledo University's Law School, Judge Aaron B. Cohn.

Another pair to enter upon connubial bliss are Hildreth Biddle and Arthur Graves, former coach and star basketball player. They were married Saturday, October 9.

On October 11, Virginia Garrett and Wilford Robison, now a student of Purdue University, were married.

Sam Shinbach, until the opening of the second semester, made the environs of Toledo his chief stopping place. With the beginning of work at Ohio State the second semester, however, Sammy struck for the capital city.

An Appreciation

“The shadowy silence of a moon-lit campus.”

Or—

“In the evening, the buildings of the college stood dark and still.”

That will all do very well for some institutions of higher learning. But not for the University of the City of Toledo.

At six-thirty every evening, the buzz and whirl of the evening sessions of the University have begun.

No dim, black halls with weird, ghostly shadows creeping in the corners—in Toledo U.

Bang! Bang! go the doors. Scuffle! Scuffle! the feet of the newcomers. The office is lighted. The telephones are ringing.

The University of Toledo has a real night life.

In the University auditorium are gathering executives of the business world and those interested in the problems of the business man. The class is in Factory Management.

In another room, the foremen of factories of the city gather after working hours are over, to discuss the best policies to be worked out in factory foremanship.

Students of the social problems of the day study the present national and world situations under the Division of Social Work.

Distinct in itself is the College of Law, with its faculty made up of attorneys who, during the day, are carrying on active practice in the city.

And in among all the other hustlers are the followers of the Arts and Sciences, Commerce, Journalism and Education.

And not till long after the campuses of other institutions are still has academic life ceased in the University of Toledo

The Faculty

Director of Evening Sessions—Dr. Carl Holliday

Assistant Director Evening Sessions—Prof. Walter Brown

CARL HOLLIDAY, M. A., Ph. D., Litt. D.,

Fulton County Normal School, 1914; sum-
mer course, Bowling Green, 1915.

J. H. HUNT, E. E.,

Part Time Instructor in Mathematics.

E. E., Ohio State University.

Social Life

Dances and mixers have featured the year's social program of the students of the Evening sessions.

Under the direction of the Entertainment committee of the Night Student Council, a Night Recreation fund was formed. Members of the committee waged an active campaign for donations to the fund. Three dances for the Night students were financed from this money.

The first Night mixer of the year was held in the auditorium Friday evening, December 2. The University orchestra supplied the music for the dances. An introduction committee made the newcomers acquainted with the older students of the Evening sessions. The committee included Mrs. C. J. Bushnell, Miss Corra Muhme, Miss Florence Muhme, and Miss Salome Bauer.

On Friday evening, March 3, the Entertainment committee of the Night Student Council arranged a dance and reception for all students of the Evening sessions. The dance was held in the University auditorium from 8:45 to 11:30. Refreshments were served.

A decidedly novel affair was the reception dance of the Electron club, given for the Night students of the University and their guests.

The electric registration pencil, from which each signer received an unexpected shock, was a feature of the evening. High powered search lights played upon the crowd as they paused to imbibe deeply of

the supply of punch, or danced lightly to such dances as the Mil-foot, the Ampere Turn, the Magnetic Dip, and the Circuit Breaker.

The party was chaperoned by Prof. and Mrs. Walter F. Brown.

The last social affair given by the Night students took place in the University auditorium Friday evening, April 21. The chaperons were Prof. and Mrs. R. N. Whiteford, and Prof. and Mrs. G. O. Frampton. The patrons and patronesses were President and Mrs. A. M. Stowe, and Prof. and Mrs. Walter F. Brown.

The Entertainment committee of the Night Student Council consisted of Miss Florence Muhme, chairman; Mrs. Carl Holliday, Mrs. C. J. Bushnell, Miss Corra Muhme, and R. L. Milburne.

The Evening Council

The purpose of the Evening Student Council is to "promote the intellectual and social welfare of the evening students of the University of the City of Toledo, and the best interests of the University as an institution."

The Council is composed of president, vice-president, secretary and treasurer, elected for one year by the entire Evening student body, and of an executive council of twelve members appointed by the elective officers. Two of the twelve councilmen are members of the Evening faculty. Prof. Lorain Fortney and Prof. Carl Holliday have served as faculty members this year.

The elective officers are chosen about the last week in May of each year and the councilmen are appointed in September of the year following.

The Council meets once a month. All plans are made with the idea of furthering friendship among the students, at the same time interesting them in University activities.

At the beginning of this year, President A. M. Stowe and Prof. Carl Holliday appointed a group of officers to work out a definite organization for an Evening Student Council and a plan for the selection of the members of such a council. The first meeting was held Thursday evening, November 10.

Committees were appointed to work out in detail the plans of the Council.

Under the direction of the Entertainment committee, several dances were given during the year in the University auditorium for the Evening students and their guests.

Electron Club

The Electron Club is made up of the members of the two classes in Electrical Engineering which meet on Monday and Tuesday evenings under Prof. Walter F. Brown.

The Electrons organized Monday evening, Feb. 9.

Electricity students who have completed the first semester work and are carrying a certain number of hours of credit are eligible for membership.

The aim of the Electrons is to stimulate good fellowship among the students and to develop interest in University activities.

An effort is made among the members to assist one another commercially. A member who may know of a vacancy in a position will report to Professor Brown, and he in turn will see that any other member in need of employment may apply for the position.

On Thursday evening, Feb. 23, the Electrons entertained the evening student body at a reception and dance in the University auditorium.

The Law College

AARON B. COHN,

Dean of the College of Law;
Part Time Professor of Damages,
College of Law.

LL. D., Ohio State University, 1910;
admitted to the Ohio bar, 1910; Dean of the
College of Law, University of Toledo, 1915-
1922; Judge of the Municipal Court of To-
ledo, 1919-1923.

AMOS L. CONN, LL. D.,

Part Time Professor of Torts,
College of Law.

LL. B., Grant University, 1906; admitted
to the Tennessee bar, 1906; to the Ohio bar
the same year; senior member of the local
firm of Conn and Holloway.

SHOLTO M. DOUGLAS, LL. B.,

Part Time Professor of Equity,
College of Law.

LL. B., Ohio State University, 1907; ad-
mitted to the Ohio bar, 1908; associated
with the firm of Mulholland and Hartmann.

GEORGE H. LEWIS, B. A., LL. B.,

Part Time Professor of Agency,
College of Law.

B. A., Ohio State University, 1904; LL.
B., the same University, 1907; admitted to
the Ohio bar, 1907; is member of the local
firm of Holbrook, Banker and Lewis.

JOHN M. McCABE, LL. B.,

Part Time Professor of Contracts,
College of Law.

LL. B., Western Reserve University,
1910; admitted to the Ohio bar the same
year; is a member of the local firm of Den-
man, Kirkbride, Wilson and McCabe.

FRANK E. MILLER, LL. B.,

Part Time Professor of Corporations,
College of Law.

LL. B., University of Toledo, 1916; ad-
mitted to the Ohio bar the same year; is a
member of the local firm of Miller and Wall.

ORION W. NELSON,

Part Time Professor of Real Property,
College of Law.

Admitted to the Ohio bar, 1890; began
practice, 1891; is associated with Lewis B.
Hall.

JOHN PRICE, B. S.,

Part Time Professor of Pleading,
College of Law.

B. S., Ohio State University; admitted to
the Ohio bar, 1900; is associated with the
local firm of Graves and Stahl, and Charles
K. Friedman.

CLARENCE IRWIN, LL. B.,

Part Time Professor of Wills,
College of Law.

LL. B., University of Michigan, 1911;
has practiced law in Toledo since 1911.

Football

Finishing a season which was considered the hardest ever scheduled for a University football squad, and winning second place in the Conference, is the record made by last fall's team. They started the season by playing Cincinnati, a team which is one of the strongest in the Ohio Conference, and held them to a score of 20-0. This is a feat which gives credit to any squad. The outcome of the game was a surprise to those who knew the caliber of Cincinnati's team and who were certain Cincinnati's score would total at least 50 points.

They defeated all the Conference teams until the last one. Then Toledo University lost to Bowling Green, and at the same time lost all claim to the Conference title. This is the nearest any T. U. squad came to winning the title.

When the call was made for candidates it brought four letter men, including Wechtel, Skilliter, Ford and Palmer, and a great number of Freshmen, who turned out to be good material.

Coach Dwyer and Assistant Coach Haley were directly responsible for the success of the team. They worked consistently in an effort to put a winning team on the field. Their time was not spent in vain, as the result of the season shows.

A unique system was established in regard to the captaincy of the team. Before each game a new captain was appointed by the coaches to have charge of that particular game. This offered a number of men the chance to take charge of the squad. The system was highly commended by the players.

With Coach Dwyer at the head next year and the majority of the team back to aid him, the outlook for a championship team is promising.

Conference Standing

	Won	Lost	Per Cent
Bowling Green	3	0	1.000
Toledo "U"	2	1	.666
Defiance	1	2	.333
Findlay	0	3	.000

Bluffton played only one game, eliminating them
as a contender for Conference championship.

TEAM OF '19 IN ACTION

Our Cheer Leader

At the beginning of the year there was not much doubt in the minds of the students who should be cheer leader. After the first Frosh entertainment Eddie was the only logical man in school. He had the pep, but what was more he had a personality that made everyone in school like him immensely. The fellows and girls liked to yell; it added to the pleasure when Eddie was out in front in his blue and gold uniform. It is too bad that he will not be with us next year because we would like to have him lead the yells of the gang that will cheer its team to the conference championship.

The Football Banquet

On the evening of Thursday, December 1, the coaches, Andy and Mike, treated the team to a banquet at Kest's. Before the Defiance game Mike told the team that if they were twenty points ahead at the end of the first half he would set them up to a real feed after the close of the season. And what a feed it was! Everything was there but the dinner clothes on the diners. Dr. Stowe and Professor Trexell were both there to give the team a word of advice. The affair has probably set a precedent at the University and next year, whether the team beats Defiance by twenty points in the first half or not, there will undoubtedly be a football banquet.

M. J. DWYER—Coach. "Joe's" greatest asset is that he is a real man. His frank, sincere, and straightforward manner, and his personality has won for him, not only the admiration of the team, but of the whole student body of "T. U." His attempt to better the scholastic standing of those participating in the sports, and his desire for cleaner and more wholesome sportsmanship among Toledo "U" teams, has added much to his credit. He advocates that "never give up" spirit, and so instills it into his men that they give all that they have to the game. This is largely responsible for the successful season of '21. "Joe" made his debut at Toledo "U" this year, coming to us from Maryland "U", where he was a great success in athletics. With the material he will have to work with next fall the outlook for a winning team is very bright.

A. J. HALEY—Assistant coach. "Andy" made a fine running mate to "Joe" in preparing the team for its numerous encounters. Having full charge of the second squad he was in a position to give the Varsity the necessary opposition to round it into shape, and also to size up the different players and make changes as the men developed along the lines that qualified them for a chance with the Varsity. "Andy" was also in charge of the Varsity much of the time, and their success was due greatly to the continual driving and strict training which he believed would be to their advantage in the end. It is not known at this time whether or not "Andy" will be back, but regardless of where he goes it is hoped and expected he will put out a winning team the same as he aided in doing at Toledo "U" last fall.

ROBERT T. SKILLITER—Student manager. Whenever anything was wanting or something had to be done, "Old Hen Peck" was set to work. The continual requests and grievances of the players made a bedlam of "Bob's" career as manager. He was very particular about the manner in which we traveled and the kind of foods that were served. On the whole a better worker or congenial fellow could not be found, and it is certain the team will miss the services which "Bob" rendered during the season of '21.

GORDON JOHNSON, 135 lbs.—End. "Skinny" was an aggressive end with hard hitting methods which distinguished him from the rest of his teammates. He was a "bear eat" on passes and was always on the job when a tackle was to be made. He was a steady, dependable fellow with lots of nerve. He will prove a great help in rounding out a championship team next fall.

KENNETH WARD, 140 lb.—End. "Ken" was a hard banging end whose greatest desire was to get down under punts so fast that the opposing quarterback did not have time to signal for a fair catch. His first year as a Varsity man has been very successful. Next year he will, no doubt, be one of the shining lights of the squad.

GILBERT STICK, 180 lbs.—Fullback. Stepping into the fullback position as though it had been reserved for him, "Gil" easily won the admiration of the school and the squad. His superiority as a plunger was quickly recognized and he often carried the ball in a drive which ended "first down for Toledo". He punted and passed with equal ease. We all expect wonderful things from "Gil" next year.

MALCOLM McINNES, 155 lbs.—Halfback. A spurt of speed and a dash around end for a 20 or 30-yard gain from "Red" was quite common. He was always cool headed and used a combination of brains and brawn that was formidable. It is doubtful if there was a better halfback in the conference. His training at Denison put him in a position to take care of all of a half's responsibilities. Thirty-five and forty-yard drop kicks were pastime for "Red". We hope he is with us next year. His loss would be felt strongly.

GORDON SKILLITER, 140 lbs.—Quarter. "Skillie" has played three years with the "U", and during this time has held the quarterback position. His speed and nerve have made up for his lack in weight, which has been a great handicap to him. With plenty of pep and a good knowledge of the game, he has made a good leader. His end runs and quarterback sneaks will be missed if "Skillie" does not return next year, although it is very probable he will be ready for next season.

JOSEPH FELDSTEIN, 143 lbs.—Quarter. "Joe's" chances were very limited last fall, but the type of playing that he displayed while in the game goes a great ways in predicting a successful future. He has a great knowledge of the game and was a good general of the team. He will be back next year to help the Varsity.

HARRY BAME, 165 lbs.—Guard. "Bamie's" season would have been much more successful had he taken the right attitude in regard to the position which the coaches thought him to be the best adapted. When finally placed in the guard position, his previous desires to become a back had vanished entirely. He readily saw his mistake and put forth all his efforts to make up for the time spent in vain. The last game of the season he showed much class in the D. Jr. game. Bame leaves this year.

A. H. SMITH, 160 lbs.—Guard. "Abe" possesses the qualities which make good line men, and with the experience he had this season there is little doubt in the minds of those who saw him play, but what he will cause much trouble to those who will compete for the guard position next year. More power to you, "Abe".

GEORGE READING, 150 lbs.—End. “Yak” completed his second season, living up to the expectations of those who knew his quality of playing from the previous year. A sure tackler and a good man on the receiving end of a forward pass, made it possible for him to retain his position at left end. His strength in attacking was soon discovered by the opposition, whether it be in breaking up an end run or downing the receiver of a punt. It is believed that “Yak” will be back next year, enjoying himself while blocking punts, recovering the pigskin, and racing across for a touchdown.

BURTON FORD, 182 lbs.—Tackle. “Tarzan” has a low, broad, heavy build that made him an ideal tackle. When he gritted his teeth and pulled a Teddy Roosevelt grin at his opponent, said opponent was as good as out of the play. His speed in breaking through the line and making his tackle good before the other fellow had a chance to get nicely started was amazing. He has two more years in the “U” and will continue to do a big part in turning out winning teams for his school.

GEORGE WECHTEL, 175 lbs.—Tackle. “Weck” is a fast and aggressive tackle, playing the game for all there is in it. He is well known to opposing teams, having played four years at right tackle, where he has been a great asset to the team. Getting a late start this season, but making up for it in the games he played, he has won the admiration of all those who have followed the “U” team in this sport. “Weck” will be conspicuous by his absence from the lineup next season.

JAMES PIERCE, 190 lbs.—Tackle. “Big Jim,” with his huge and towering figure, put fear into the enemy as soon as he appeared on the field, and they surely remembered him if they met during the game. The usual question heard before the game, “Who’s the big bird?”—After—“The big boy can sure play, can’t he?” “Jim” distinguished himself at Cincinnati, where he displayed a brilliant knowledge of football in all departments of the game. He grounded his ends and broke up play after play, seemingly with little or no effort. He will be in uniform next fall when the squad reports.

EDWARD WALTERS, 135 lbs.—Halfback. Although feeling slighted and becoming easily enraged because he did not play as much as he desired, "Eddie" was always found ready to take his place wherever he was most needed, whether it be at half, quarter or end. If his weight only corresponded more to his knowledge of the sport he would likely play in every game. "Eddie" will try to put on more weight before he appears in moleskins again. His will, spirit and ability were bywords with the squad.

G. ARLO SHIVELY, 155 lbs.—Halfback. "Shovels," with some previous experience, soon fell into place and settled down to become a part of the football machine. His speed, ability to punt, and concentration upon his duties, brought out his brilliant qualities of a player. He will be back next year, much to the satisfaction of those who know his manner of playing.

ALFRED WAGERS, 140 lbs.—End. With the tackling ability which "Al" showed the short time he was out, before the end of the season, he would have been a wizard at the game had he trained all year. Not only was he always sure of his tackles, not afraid to leave his feet and dive for the man, but when he hit, the receiver of it would remember it for the time being, if not afterwards. If "Al" is back next year it is hoped that he will be able to commence at the beginning of the season.

JOSEPH MORE, 160 lbs.—Guard. "A good fighter" is an honor than can truthfully be given to "Joe". Regardless of the score or the period of the game he was giving his best to make his team the winner, either by breaking through the opposing line or making a hole for the backs to plunge through. In his last year "Joe" gave all he had to make the season a success.

JOSEPH MANTON, 150 lbs.—End. "Joe," using his lightning speed, soon let the opposition know which end of the line was his after their first attempt around him. He was handicapped by his late arrival in school, which kept him from playing several games. To catch a forward pass was child's play to "Joe" and regardless of where the ball was thrown it eventually fell into his waiting arms to receive a ride at "Joe's" delight. "Joe" expects to return next fall and play the full season.

GEORGE PALMER, 155 lbs.—Center. With a record that is difficult to beat, "A G" leaves his position open upon graduating, after having played four years of stellar football at the pivot position. He has played in every game with the exception of one or two during the season of 1919, when a broken collar bone prevented him from playing these. So much confidence was placed in "A G" during the last two years that a substitute center was almost obsolete. His greatest qualities were his accurate passing and ability to break through the opponents' line. Giving his best at all times of the game, regardless of personal feeling, and playing in the interest of the team, he has left a spirit which will linger long in the minds of those who knew him.

CHARLES BEARD, 134 lbs.—End. With the completion of a successful season in sight, "Chuck" was disappointed by injuries which he received very late in the year, although his previous work at end was well recognized as a Beard quality. He was fast on passes, good on the defense and could take out tackles regularly, although greatly outweighed. Fully recovered, it is hoped he will be with us again next year, where his services are much appreciated.

HARPER HOOVER, 165 lbs.—Guard. When inclined to give all he had "Old Doc" was there with the goods and displayed them in such an excellent manner that he was usually in the starting lineup. Playing the same excellent type of game as that of last year gave him a berth over a heavy list of competitors. His two years of experience should make him a valuable man next season.

OUR FIRST
TANK MEET
Detroit
vs
U. & T.

Basketball

Another season has passed, but the success of the team of '21-'22 has left its impression upon the students to such a degree that a brilliant future is already being looked forward to for next year's squad. Coach Watts and Assistant Coach Graves are to be commended for their work in rounding out such a successful squad, considering the lack of veteran players.

With a record of five wins and three losses in the Conference, the team finished the season in third place. Only three games were lost to teams outside the Conference.

At the beginning of the season it looked as if the team would cinch the championship of the Conference with ease. Stepping forward at whirlwind speed the team emerged victorious in the first three games, and regardless of their next two defeats, not once did this steady, loyal and hard fighting crew ever give up their chance to win the title until after the final whistle had blown in the last game. The illness of Coach Watts near the end of the season was a great handicap to the team—a handicap which was not fully overcome.

A part of the success of the season is the fact that Bowling Green, our nearest and keenest rival, was defeated in both games. This rivalry, existing in baseball, football and basketball, has held the interest of the students to a high degree.

Dowling is the only man lost to the squad through graduation, and prospects are exceedingly bright for a record breaking season for next year.

Basketball Schedule

	T. U.	Op.

The Team

Player	Position	Points
Ward	Left Forward	16
Weisburg	Right Forward	69
Price	Center	18
McInnes	Right Guard	26
Stick	Left Guard	12
Dowling	Left Forward	9
Steinberg	Center	13
Butts	Center	37
Wolf	Center	14

STICK—"Gib" secured his place on the team by his consistent and marvelous ability to guard the opponent, regardless of size or speed. He is a pillar of strength when it comes to keeping the scores low and stopping men from getting behind him. Every so often he took the trouble to toss a long thriller in at a critical time. He will be back at his same position next season.

WEISBURG—"Matty," the smallest man on the team, is made up of quality which includes nerve and an accurate eye for the basket. His quickness and accuracy, together with his method of following up every shot, makes him a wonderful floor man who is always in every play and is very hard to guard. Mattie showed much class for his first year on the Varsity. A better record will be expected from him next year. He was almost always sure of his foul throwing.

BUTTS—Butts, playing his first year, landed the center job, where he displayed his characteristic fight and pep in all periods of the game. He usually outjumped the opposing center by his quickness and careful watching of the ball, being ready at all times. He played a good game either on the defense or on the offense. At Bowling Green he was looping them in regular from any part of the court, and led the scoring by a wide margin. With his two years of experience he will make a valuable man in rounding out the Varsity for next season.

McINNES—"Red" is the type of guard who possesses a great fighting spirit and an accurate eye for the hoop, making him an excellent man for running guard. He delighted in taking the ball off his own backboard and then dribbling the full length of the floor, finally looping it into the opponents' basket, while they gasped in amazement. Although a guard he ranks high in the scoring column. It is hoped he will return for the next year's squad.

WARD—Ward showed much class for his first year. He was swift on the floor and a hard man to guard. Although not so accurate in shooting at the basket, he always helped get the ball in a position where it was possible for a teammate to loop it through. Being able to break up pass work and to get through the defense of the opponents made him a valuable asset to the team. His chances for a regular berth are probable if his work is of the same style showed this season with some improvement.

TEAM OF '20-'21

WOLF—Wolf's first season was very short, although he displayed a knowledge of the game which next year should have much to do with his securing a Varsity position. Entering school late he was ineligible for a number of the games, and as he was getting active in the game received injuries which prevented him from finishing the season. It is hoped that he will be able to complete the next season without any handicaps that would have any effect upon his playing.

STEINBERG—Having previously played with "Mattie", these two forwards made excellent partners and worked fine in this combination. "Steinie" was a fast man on the floor, being able to dribble, pass and shoot quite accurately. He played a hard, clean game and was near the top of the list in the number of points accumulated during the season. "Steinie" will return next year and try his luck at the cage game.

PRICE—When George got to going he made all the guards hump for a job on the quintet. Using his muscular frame to the best advantage he became a great menace to the opposition, and was instrumental in breaking up the passing game. With the experience gained this season he will, no doubt, secure a regular position on next year's squad.

BAME—Bame showed up well this season, and played enough to show his understanding of the game. He is exceptionally fast for a heavy man and is able to get around on the floor where his speed and weight can both be used. Being able to pass aids a great deal to a guard's position. Bame is cool headed and uses this to a great advantage while in the game. It is doubtful as to whether he will return next fall, but the best is hoped for.

DOWLING—Carl was ready to get in the game at a second's notice and was soon working in harmony with the other members of the team. Playing a good game at forward, he made an excellent relief man and could be relied upon whenever he was sent in. This is Carl's second season on the Varsity and he is recognized as a faithful and conscientious player, always giving his best while in the game. He will be missed next year.

TEAM OF '19

TEAM OF '19-'20

COACH WATTS IN ACTION

Baseball

In 1921 baseball was introduced at Toledo University as an inter-collegiate sport. The team, without previous experience, and lacking in certain rudiments of the game, nevertheless came through the season with a good record. Playing eleven games, they won four, lost five, and tied two. Both tied games were played with Bowling Green, each running into the fourteenth inning. The most exciting game was played at Findlay. The Toledo U team overcame Findlay's three-run lead by scoring four runs in the ninth inning.

Coach Watts was very successful in his attempt to have a winning team, considering the material with which he had to work. The majority of the members of last spring's team are in school and reported for practice when the spring training began. With the experienced players from the previous season and the new men who will try out, there is no reason why the team should not win the majority of the games on its new schedule.

The Team

DOWLING—Third baseman. Carl started the season at short, but soon left this position and played at third base, where his good arm and accurate throwing made him a good man for this place. Once on base he was a good base runner.

RUPERT—First baseman. Rupert secured the position at first base from a large number of candidates. He played the game in such a manner that kept him his place from the time he resumed his duties until the end of the season. He will be out this spring in an effort to get his old position back.

WECHTEL—Outfielder. Wechtel made a radical change during the season, going from his position at first to the outfield. He was handicapped most of the season by an injured hand, but regardless of this he handled the bat in good shape and was sure of his catches. He is ready to report for practice when the call is made.

GLADIEUX—Shortstop. Frank made his first appearance in "U" sports and was a great success in this particular branch. He was a hard hitting man, an expert in knocking down fast liners, and an accurate thrower, making him a valuable man at the short position.

SKILLITER—Second baseman. "Skillie" was lead-off man and the team was almost certain to have a man on base at the start. He ended the season with a fine batting average, also leading in the scoring. Being speedy made him a good man on base and also at his position at second, where he handled the ball in a clean manner.

THAIS—Right fielder. Thais made the varsity in his first year and played the game in excellent style. He made a good fielder, being able to gauge the ball and then, after a good catch, pegging it to the infield with great speed and accuracy. He will be out this spring in an effort to retain his place in right field.

JACKA—Pitcher. Jacka was one of the greatest assets of the team. The question as to whether the team will win depends to a great extent upon the capacity of the pitcher. He fulfilled this requirement, not only by his pitching but by his batting, being mostly noted for his regular two-baggers. Jacka will not be able to try out for the squad this spring.

NOPPER—Left fielder. "Old Nop" was a classy fielder, always able to pull the long flies from any place in the air, also possessing a good throwing arm, which qualified him for his left field position. A couple of good hits were expected as his share and he seldom failed to do his duty.

GRAVES. Art was kept out of numerous games, not being eligible as he was a post graduate. Playing a good game, either on the mound or in the field, with a great eye for batting the ball, made him one of the best men on the team. Art will be missed very much from the team this spring.

WALTERS—Catcher. Eddie played the old game behind the bat. His weight was a great disadvantage to him. Not many balls got by Eddie and a runner on base always knew that he could not lead too far or one of Eddie's quick throws would retire him to the bench. He will be out for his old place when the season begins.

HOOVER—Pitcher. Harper was a member of the pitching staff. It was really a dangerous matter to be at leisure anywhere near to where Harper was at practice. He pitched good ball as soon as he got into pace, and made an A No. 1 pinch hitter, usually coming clean with a long bino.

FORD—Center fielder. Burt attempted to make the squad as a second baseman, but before the first game he was well located in the remote parts of center field, where he remained the rest of the season. The ball usually fell into a well when it struck his glove. His timely hit at Findlay in the ninth says none too much for his batting. Ford will be in uniform as soon as the season starts, trying to hold his old position.

Girls' Basketball

After many unsuccessful attempts to form a basketball team for the girls of the University, a team was finally formed in December, 1921, with Miss Van Voorhees as coach, Christel Hiss as captain, and Edythe Bumgardner as manager. With the formation of the team came the organization of the Girls' Athletic Association. Christel Hiss was chosen president.

Out of the four games played the T. U. girls won one.

The following was the schedule:

Feb. 18—T. U. 6—Bluffton 11.

Mar. 3—T. U. 11—Detroit Juniors 25. At Detroit.

Mar. 17—T. U. 8—Detroit Juniors 31. At Toledo.

Mar. 30—T. U. 31—Y. W. C. A. 12.

The Teaser

Shortly after the beginning of the second semester of the school year, 1918-19, an urgent need was felt for a student paper. The growth of the school, due to the S. A. T. C., was so phenomenal that the necessity of a paper was very apparent.

Accordingly Sam Shinbach, ex '22, and Leo Steinem, ex '22, decided to undertake the publishing of a paper. Sam was the business manager and Leo the editor. At that time the paper was known as "The Universi-Teaser".

It was not supported from the student activity fund, but was personally financed by Sam and Leo.

The first issue of 300 copies appeared March 5, 1919. It was written almost entirely by the editor and business manager. But their duties did not end there by any means. After the paper was off the press, the founders had to hawk them through the halls, selling them at five cents a copy.

Shortly after this a staff was picked. It was not an elaborate affair such as The Teaser boasts today. Nor were there any offices as today. The paper was edited in the halls, in class and at home.

By the end of the year the circulation had increased to 500, and the paper was established. It ended the school year with a balance in its favor and the staff received a banquet and a suitable memorial. The women received little lockets and the men gold pocket knives inscribed with their name and the position that they held on the paper.

The following year the Teaser Publication Board was organized and took over the financial responsibility of the paper. Ruth Nmeviller was editor. The business manager's chair had three occupants in the course of the year, Earl Roper, Wilford Robison, and Marion Hart.

This year the paper was given an office in what is now the cloak room, between the information office and the faculty room. The name of the paper was also changed to its present one, The Teaser. The course of The Teaser was not so smooth and the end of the year came with a deficit on its books.

During the year 1920-21 Ruth Heater was editor and Al Wagers business manager. Room 101 was used as an office, and the paper had

a brilliant staff composed of Bill Van Gorder, Ruth Nuneviller, Leo Steinem, Ella Outerbridge, Hazel Geiner and Phil Gibbs.

In the spring the printers' strike prevented the issue of all numbers. At the end of the year Phil Gibbs was chosen editor (after serving as star reporter the second semester). Al Wagers was again elected business manager.

During the current year (1921-22) The Teaser moved to its present spacious home. The advent of the first typewriter was an occasion for a day of feasting among the staff. Now all copy must be typewritten. Such is the progress of successful publishing.

The Teaser Publication Committee

This committee was organized at the beginning of the school year, 1919-20. Its purpose was to make The Teaser the official publication of the University. It undertook the financing of the paper and provided a faculty advisor for the staff. The first Teaser Publication Committee was composed of:

Dr. A. Monroe Stowe.....	President
H. E. Marker.....	Board of Trustees
E. E. Troxell.....	Professor of Journalism
Ruth Nuneviller	Editor
Earl Roper.....	}Business Managers
Wilford Robison.....	
Marion Hart.....	

For the Year 1920-21:

THE TEASER

Edited Weekly by The Teaser Staff of The University of the City of Toledo

VOL. 1, NO. 14

THURSDAY, JANUARY 12, 1922

Price 5 Cents

'U' TO MOVE TO NEW CAMPUS

"A PAIR OF SIXES" IN U AUDITORIUM SATURDAY, JAN. 14

Cast of the Play Is to Be the Same as Last Time

PROCEEDS WILL GO TO ATHLETIC ASSOCIATION

Tickets Now On Sale By Members of the Cast

The production of "A Pair of Sixes" will be given at the University Auditorium on Saturday, January 14, at 8 o'clock. The cast of the play is the same as last time. The proceeds of the play will go to the Athletic Association. Tickets are now on sale by the members of the cast.

The action of the play is set around the time of the Civil War. George H. Thompson and Charles H. Johnson are the main characters. The play is a comedy and is very popular.

ROPED IN AT LAST OR SUSIE'S LAST STAND

The Coroner's Verdict is Accidental Death

What was the cause of the accident? Was it a rope? Was it a fall? The coroner's verdict is accidental death.

Are they trying to make a play of it? Are they trying to make a play of it? The coroner's verdict is accidental death.

But the story of the accident is really a tragedy. It is a story of a young woman who was roped in at last.

One of the most interesting features of the play is the story of the accident. It is a story of a young woman who was roped in at last.

Confusion, stepping on each other's heads and birdlike to the ground, the Coroner's verdict is accidental death.

GIRLS' LOCKERS IN HALL MAY BE NEXT MOVE

There is a possibility that some of the girls' lockers will be put on the second floor of the University Auditorium.

The relocation of fifteen new lockers in the girls' room has made the room almost impossible to get to the lockers between classes.

It is now proposed that some of the lockers be moved to the second floor of the University Auditorium.

The Blockhouse

The first rumors of the desire for an annual publication at the University came last year when The Teaser staff tried to get one started for last year. Matters progressed as far as the taking of subscriptions among the students, both day and evening. A one dollar deposit was requested "for an annual of the University of the City of Toledo, the total cost of the book to be not more than three dollars."

The question of a business manager and editor, however, was never settled. Because of the lateness and the general business conditions it was impossible to get anyone willing to undertake the three thousand dollar obligation of financing the book. As a result of this the one dollar deposit was refunded and the book never was published.

The Teaser staff had started though. The school as a whole had taken an interest in the prospective annual. Consequently The Teaser staff outlined a plan for the election of a business manager and editor. They were to run in pairs to insure harmony between the two branches.

The election was held late in the spring and the editor and business manager of this, the first "Blockhouse", were elected by the student body.

The Blackfriars

In the spring of 1921 the Woman's Association was badly in need of funds to continue their work at the University. When the question of raising money was brought up in meeting it was decided that the best way to go about it would be to give a play. At first a play containing only women in the cast was considered. Then it was decided that if a popular stage play was picked it would have a much more general appeal.

With this in mind Charles Beard was asked if he would make the attempt. The play "A Pair of Sixes" was chosen after a try-out held in room 102. Rehearsals were held in the Board of Directors' room because it was impossible to get into the library where classes were being held.

After work had been started on the play it was discovered that the scenery owned by the school was inadequate. It was decided that the only thing to do was buy or build some which would fit the play. In the end "Yak" Reading, George Beard and "Chuck" bought some lumber and canvas and paint and built the necessary setting. Wernert Kiemle installed the footlights and on May 6 the play was presented before a packed house.

After the hours of hard work, the disappointments that had been suffered together, and finally the triumph, the students interested did not want the organization which they had built up to go to pieces, and so the Blackfriars were formed as a permanent dramatic club at the "U". A constitution was drawn up and officers elected.

During the fall term of this year when the Blackfriars were planning to start work on another play a request was made for a repetition of "A Pair of Sixes" for the benefit of the Athletic Association. Rehearsals were started and the play was presented a second time on January 14.

When the Dramatic Association was formed the Blackfriars was made an honorary dramatic club, its members being elected from the Dramatic Association members who have successfully taken part in one or more D. A. plays.

The Dramatic Association

The Dramatic Association was founded in the spring of 1921. It grew out of the Blackfriars, Honorary Dramatic Club, through the need of a dramatic association open to the Student Body.

Early in the fall of 1921 J. Gazzam Mackenzie was chosen coach of the association.

Two plays—"Heirs-at-Law" and "Neighbors"—were presented during the year of 1921-22.

The cast of "Heirs-at-Law" includes:

Richard Doane.....	Wesley McKee
Leebert Lloyd, a young lawyer.....	Gordon Skilliter
General Lindsay Doane, Richard's uncle.....	Wernert Kiemle
Mrs. Rockwood, Richard's mother-in-law.....	Lucretia Abbott
Gertrude Doane, Richard's wife.....	Helen Fox
Phoebe Rockwood.....	Verda Pelton
Meta	Althea Hill
Trixie Fleurette.....	Bonney Fielding

"Heirs-at-Law" was first presented at morning Convocation, January 11. It was played in a joint program with the Vocalion and Men's Glee Clubs, February 17, and at the Auto Club Show held at the Coliseum, February 15.

The cast of "Neighbors" includes:

Mis' Dianthy Abel.....	Josephine McInnes
Mis' Trot.....	Ruth Heater
Mis' Moran.....	Marion Hart
Grandma	Agnes O'Toole
Inez	Helen Shoebridge
Ezra Williams.....	George Reading
Peter	Norman Johnson
Miss Elsworth.....	Helen Wickenden

"Neighbors" was first presented at night Convocation, January 12. It was also played in a joint program with the Vocalion and Men's Glee Clubs, February 17, and at the Readers' Dramatic Club, February 24.

AFTER A REHEARSAL

The Student Council

Three years ago, out of a desire of the faculty to have some official student representatives, and on the part of the students to have spokesmen for the student body, grew the Student Council.

That year the main duty of the Council was to provide the convocation program.

The following years new student activities were taken over, such as making complete arrangements for the University picnic, and the reception for the high school seniors.

The first big problem that confronted the 1921 Student Council was the Frosh-Soph scrap. This was handled so successfully that the student body realized that much credit was due the Student Council.

During this semester, arrangements were also made by which an honorary fraternity might be started at Toledo University for the leaders in student activities.

The first semester of this year it was thought advisable to enlarge the Student Council. Two members—a girl and a man—were chosen from each class. Another change was made, in that the president of the Student Council was not required to be a senior, but merely from the senior college. It was decided also not to elect a secretary from the student body. The woman representative from the Senior class acts as secretary. This plan went into effect the second semester.

First Semester

The Quibblers Literary Society

Started during October, 1921, by Leo Steinem, the Quibblers have rapidly become one of the hardest working groups on the campus. During the first year their meetings were held on Sunday afternoon. The attendance was large and the meetings were interesting. They consisted of discussions on student problems and addresses and papers by the members. At the end of each meeting a discussion of the merits and demerits of the address was held.

At the beginning of this year Louis Jodry was elected president, and the question of a debate with Detroit Junior College was brought up. It was decided to put the matter to a vote of the student body. At a general convocation the students voted to make debating a University activity and nineteen signed up to try out for the debating team. It was so late in the year, however, that the project was finally abandoned.

The second semester Adrienne Curtis was elected president to replace Jodry, who had joined the ranks of the benedicts and left school. The club has held its meetings regularly and is preparing to start early next fall to put a successful debating team in the field against all comers.

The Varsity Club

In 1918 the Varsity men of the University organized themselves into a club for the purpose of furthering athletics at the school. The club flourished until the fall of 1920 when football was abandoned in the middle of the season. At this time the members became discouraged at the futility of their efforts. They soon took heart again though, and the club was reorganized to help put through the basketball season. After successfully going through the season the club was running smoothly and has been going strong ever since. Last year a very delicious dinner was given at Kest's. This year the club backed the play that was put on for the benefit of athletics. Another banquet was held late in the year in honor of the new letter men.

Quotus

Quotus is the honorary journalistic fraternity of the school. Selections for membership are made from those who have served one semester on the Teaser and Blockhouse staffs.

Quotus was founded in 1920 by the members of the Teaser staff of that year. Ruth Nuneviller Steinem was editor-in-chief of the Teaser at the time.

The purpose of the organization is that of forming a social group of those students interested in literary and journalistic fields.

The Orchestra

Early in the second semester of the year 1920-21 Harold Meffley and Irving Culp organized the first orchestra at the University.

It was hard sledding at first, but gradually enthusiasm was worked up and finally an orchestra of 12 pieces was assembled and ready to make its initial bow before the students.

The first appearance was before the student body in Convocation. (In those days Convocation was held only once a week.) The first number to be played by the new orchestra was "Golden and the Blue"—our school song.

On May 6 the orchestra played for "A Pair of Sixes".

This year the orchestra got an early start and has the following concerts to its credit:

February 9—Delta, Ohio.

January 7—Nathan Hale School.

December 2—Night Mixer.

December 7—City G. A. R.

December 16—First Congregational Church.

November 20—Epworth M. E. Church.

March 6—Factory Management Class Banquet.

March 22—Perrysburg.

The director of this organization is Irving Culp, and the president and manager is Harold Meffley.

The Student Y. M. C. A.

The work of the "Y" in behalf of the University is one which few students realize because it is done in such a quiet and unobtrusive manner. The first social event of the year was the Freshman mixer given by the "Y" in the Auditorium. This was followed by a stag party. There were boxing matches, baseball games and eats around a campfire, and speeches by faculty members. The next party was a Halloween stag at the Scout Reservation with speeches and a delicious "feed".

In November a class was started under Dr. Bushnell in which "The Discussion of the Social Principles of Jesus" was used as a text. The class met once a week and was well attended.

On February 17 another stag was held, this time at the city "Y". Twice during the year the Y. M. C. A. brought speakers to the Wednesday convocation. They were Reverend Stephen Mahon and Reverend Allen Stockdale.

The greatest accomplishment of the "Y" this year, however, was in handling the vocational guidance work under the direction of Dean Irvin. By means of the questionnaires which the students filled out, one hundred and thirty-six men had interviews with such prominent men as C. A. Collin, business manager of the Toledo News-Bee; W. J. Sherman, consulting engineer; W. I. Grove, salesmanager of the Milburn Wagon Works; and Lucas J. Beecher, assistant editor of the Toledo Blade.

Vocalion Club

The first girls' Glee Club at the University of the City of Toledo was organized in November, 1921. Miss Lulu Pelton, a University student, who had had experience in Cleveland musical circles, volunteered to act as director.

Shortly after its organization it was decided to change the name to the Vocalion Club, and the following officers were elected:

President Margaret McKendry
 Vice-President Helen Shoebridge
 Secretary-Treasurer Verda Pelton
 Librarian Helen Wickenden

The first public appearance was in December when the club sang at Convocation. Since then it has appeared before the Lions Club in January, Convocation, in a joint concert with the Glee Club during February, in a recital at the Woman's Building in March, before the Exchange Club, the Rotary Club, and the Luther League of St. Paul's Lutheran Church. The year's program ended with a May concert.

Every concert was a success. Nothing of higher praise could be said for the club.

The Pan-Hellenic Council

This council is not a recognized activity at the University. Its prime purpose is to enact and enforce legislation governing the fraternities and sororities of the school. While not a recognized organization it has done a great deal to improve the scholarship of the school. It made the ruling that all students pledged to a fraternity or sorority must pass in fifteen hours of work. This requirement is stiffer than the one regulating the participation in athletics. It also planned and enforced a "rushing season", which has eliminated "railroading" by the fraternal bodies.

Each fraternity and sorority sends three representatives to the council, which meets every two weeks. These representatives act as ambassadors and have the power to vote for their organization. What the representative votes for, his or her organization must stand behind.

Plans are being made to have the Pan-Hellenic Council recognized by the faculty.

MEN'S UNION

The Men's Union

The Men's Union is a new organization in the University this year. It was organized on March 2, 1922.

The Union was organized for the purpose of binding the students of the University together into a more compact body to boost the school. It has already created a feeling of fraternalism and fellowship among the men of the student body. It is in the future to create a social center which will be a hub for all student interests and activities.

One of the great advantages offered by the Union is that it provides an organization for the non-fraternity men on the campus. This feature alone makes the importance of the Union clearly understood. The membership is not restricted to non-fraternity men, however. It is open to all men students carrying a minimum of ten hours of class work. This enables not only day students to be members, but also gives an opportunity to many late afternoon and evening students to join and take a prominent part in the activities of the institution.

The present policy of the Executive committee is one of foresight. They have planned "to make progress slowly." There is no desire on the part of the officers or members to rush blindly into the limelight through a burst of brilliant speed which they would not be able to maintain.

The Women's Association

"When you need money call on the Woman's Association." This seems to be the motto around the University.

When the fellows needed blankets to keep them warm and dry during football the W. A. came to the rescue with a candy sale. Fifty dollars was raised toward a blanket fund. Later in the year after the formation of the Woman's Athletic Association the W. A. put on another candy sale and raised thirty dollars.

Last year the W. A. was in need of funds and out of the play which was given to raise them grew the Blackfriars.

During the Carnival of both last year and this year the W. A. ran the Japanese Tea Room, a delightful little booth where one could rest, sip tea, and indulge in such delicious little tid-bits as only the ingenuity of the girls could concoct.

The first action toward a Woman's Athletic Association took place in one of the meetings of the W. A. With all this in mind we can not help but think of it as "the mother of our activities".

Men's Glee Club

The Men's Glee Club, founded in 1920 by James Enderberry, '23, was reorganized soon after the opening of school in September. The following officers were chosen:

President Joseph F. More
 Secretary-Treasurer..... Robert Meffley
 Publicity Manager..... Harold Meffley
 Director Edward Holmes

The Glee Club has given many programs this winter throughout the city as well as at two nearby towns. They made their appearance at Central Christian Church, Washington Congregational Church, Broadway M. E. Church, Plymouth Congregational Church, Memorial U. B. Church, Genoa and Delta.

Hildreth Biddle Graves

Early in the fall of this year Hildreth was elected an honorary member of the Glee Club. She has accompanied the club on all of its trips as dramatic reader.

She has had an abundance of training under the best dramatic teachers in the city. This, coupled with an extraordinary natural ability, has made her part on the programs of the club one of the most entertaining features.

It is the sincere wish of all who have attended any of the Glee Club concerts that she will return next year to please them again with her inimitable readings.

Under the Spreading Chestnut Tree

Under the spreading chestnut tree
 Our little jokesmith stands,
 He plies his trade with liberty
 And takes into his hands
 The nuts that fall from off the tree
 And names they jokes and jests.

Thus grows this book, and it is fit
 That he confess his plan—
 When Students read and "cuss" his jests
 And jokes that he has "ran",
 He'll hide his face in the safest place
 For he fears 'most every man.

Calendar

SEPTEMBER

- Sept. 12—First day of school. Everyone becoming acquainted with everyone else.
 Sept. 13—Helen and Yak begin their romance by spending an hour or so on the "U" front steps translating Spanish.
 Sept. 14—Election of officers. Ravid Roscoe, Freshman; Burton Ford, Sophomore; George Reading, Junior; George Palmer, Senior.
 Sept. 15—Dave Roscoe and others take a swim in the horse-trough.
 Sept. 16—First mixer of the year given at the University Auditorium by the "U" Y. M. C. A.
 Sept. 19—Sigma Beta Phi's give a party at the Fraternity rooms.
 Sept. 20—Phi Kappa Chi's entertain at the Barracks.
 Sept. 21—George Palmer elected president of Student Council.
 Sept. 22—Pi Delta Chi's give a spread at Christel Hiss' home.
 Teaser makes its first appearance.

- Sept. 23—Frosh and Sophs had a little disagreement as to which should enter by the main doorway. Sophs win!
 Sept. 24—First football game—Cincinnati 20, T. U. 0. A splendid game, nevertheless.
 Sept. 26—Teaser office window mysteriously broken. Some whisper that Phil stuck his elbow through it.
 Sept. 27—Phi Theta Psi's gave a Bacon-bat at Restmore Beach.
 Sept. 28—Chestnuts initiate the College Cave with a chess party.
 Sept. 29—Frosh-Soph scrap at the Farm. Some scrap, too!
 Picnic lunch and a dance at the University Auditorium.
 Sept. 30—Sigma-Pi Delt mixer at the "U" Auditorium.

OCTOBER

- Oct. 4—Kappa Pi Epsilon entertain with a motor trip to Waterville.
 Oct. 5—University pins and buttons distributed in convocation to those who secured six hours of A and B grades.
 Oct. 6—Helen Fox proudly flashes a Sigma Chi pin.

- Oct. 8—Football game: T. U. 47, Findlay 0. Who said we couldn't play the game?
 Oct. 10—The Frosh arm-bands and caps arrive. Aren't they beautiful?
 Oct. 11—Good number turn out for Teaser try-out.
 Oct. 12—Kappa spread at the Gab House.
 Oct. 13—Teaser office moves to the Journalism Lab off the Cave.
 Oct. 14—Beginning of Pi Delt house party.

- Oct. 15—Pi Delt-Sigma dance at LaBounty's.
 Football: T. U. 40, Defiance 0.
 Arthur Graves and Hildreth Biddle are married.
 Oct. 17—Several Freshmen forget their caps—end up in the horse-trough.
 Oct. 18—Quibblers organize again.
 Oct. 19—T. U. Faculty Reception Dance at the Woman's Building. Everyone enjoyed themselves immensely.
 Oct. 20—Founders' Day. Aren't we glad they did?
 Oct. 21—Teaser office moves again, this time to permanent quarters in the Electrical Engineering Lab.
 Oct. 22—Football: T. U. vs. Adrian. To avoid a riot the T. U. team forfeited the game.
 Oct. 24—Kappa Bake Sale.
 Oct. 25—Annual staff begins work.
 Oct. 25—Freshman co-eds rather daubed with lard and flour by Sophs. Nevertheless the Frosh turned the tables and repeated the performance. Dean Easley favors Sophs.
 Oct. 26—New addition to our University—Jazz Orchestra.
 Oct. 27—Announcement of the marriage of Virginia Garrett and Wilford Robison. Congratulations!
 Oct. 28—First meeting of the University Dramatic Association.
 Oct. 29—Football game: T. U. 7, Bowling Green 20. Too bad.
 Oct. 31—Girls' Glee Club given the name of the Vocalion Club.

* *

Not That Kind of Bird

Dean Easley, at a railway station, asked a porter where she could get a ticket. The man pointed in the direction of the ticket office.
 "You can get it there," he said, "through that little pigeon hole."
 "Get away, you idiot," she exclaimed. "How can I get through that little hole? I'm not a pigeon."

* *

Good Bargain

Al Wagers—"You mean thing. You said that you wouldn't give away that secret I told you."
 Gert Simpson—"I didn't. I exchanged it for another secret and a chocolate sundae."

NOVEMBER

- Nov. 1—The "B and H's" will meet tonight. Great Mystery! ! !
- Nov. 2—Alas! Our hopes are dead. We expected to enjoy check-to-check dancing at sixty as at twenty, with the aid of monkey glands—but Dr. Tret-tien says no.
- Nov. 3—If students don't stop standing around in the lower hall to read their Teasers we'll have to hire a traffic cop to keep aisles open.
- Nov. 4—The Kappas all look tired this morning. We wonder why?
- Nov. 5—Toledo vs. Baldwin-Wallace.
- Nov. 7—Terrible calamity! The bell at the end of the fifth hour was five minutes late.
- Nov. 8—Someone is always taking the joy out of life—the pros are talking of mid-semester exams.
- Nov. 9—Chaplain MacLane of the American Legion spoke in convocation today.
- Nov. 10—A sloppy, snowy day.
- Nov. 11—Frisky Freshmen frolic at Victory Dance.
- Nov. 14—Music furnished by cub reporters pounding typewriters is served with meals down in the College Cave.

Nov. 15—All hail "Ye Olde Storm Door"! We bow low in reverence.

Nov. 16—Our new basketball manager:
Brenkman rah!
Brenkman rah!
Rah! Rah! Brenkman!!!

Nov. 17—Some more news of mid-term exams

Nov. 18—Isn't it grand when one of your profs leaves town for a day?

Nov. 19—Toledo U surprised Detroit Junior in the aquatic football game today

Nov. 21—No, Jasmine, no one was shot up in the library. That was a Pi Delt pledge balloon.

Nov. 22—Help!!! What became of the perros calientes today?

Nov. 23—These long convocations are great stuff when you have an exam next hour.

Nov. 24—Thanksgiving. Everyone ate the usual "big one" with all the trimmings.

Nov. 25—Phi Kap dance, T. Y. C.

Nov. 28—Under the new Eastern Time law people with eight o'clock classes are out of luck. They have to leave home in the dark.

Nov. 29—Iodine and lard,
Iodine and lard,
They're hard to get off,
Though we try very hard.

Nov. 30—The profs who wish to save electricity these dark mornings should put on their vests the night before.

DECEMBER

- Dec. 1—Sophs practice football in the middle of Eleventh Street.
- Dec. 2—Frosh-Soph football game: 0-0.
- Dec. 5—Goloshes make their appearance.
- Dec. 6—Burton Ford tries his luck at dodging cream puffs.

Dec. 6

ER

- Dec. 7—Everybody buy an Annual!
- Dec. 8—We "shuttle" it out to the Science Building.
- Dec. 9—Soph Dance. Frosh a minus quantity.
- Dec. 12—Sigma's snowball fight.
- Dec. 13—"Not so good" is the opinion of the profs on the 3-bell system.
- Dec. 14—Is intercollegiate debating an intellectual prizefight—or like croquet?
- Dec. 15—Who said T. U. didn't have a basketball team? T. U. 28, Findlay 0.
- Dec. 19—Candy! Candy!! Proceeds for Blanket Fund.
- Dec. 20—Secrets! Dancing in the Library.
- Dec. 21—More dancing. Tri W Santa Claus. Hurrah for vacation. Freshmen look for Santa.
- Dec. 27—Phi Kappa Chi Stag Party.
- Dec. 29—Pi Delt Dance.
- Dec. 30—Sigma Dance. Bob Gillette loses key to his machine. Ye editor waits till 2:30 to go home.
- Dec. 31—Phi Theta Psi Theatre Party.

* *

Definition by Example

Joe Manton—"Ere, Doc. You know everything—what's a cosmopolitan?"

Doc Betts—"Well, it's like this: Suppose you was a Russian Jew livin' in England, married to a black woman, an' you'd just finished a bit of Irish stew an' was smokin' an Egyptian cigarette, while a German band outside was playing the Blue Bells of Scotland—you'd be a cosmopolitan."

* *

Tried to reason with Al Wagers the other day, but he will never admit he is wrong. Trying to relieve the situation I said, jokingly: "I don't believe that you would admit without argument that two and two make four." "Certainly not," Al said. "For instance, they might make 22."

* *

Hard, Harder, Hardest

Professor Bradley—"Why is history hard?"

Dorothy Bond—"Well, we've had a stone age, a bronze age, and an iron age, and now we're in a hard-boiled age."

JANUARY

- Jan. 3—School again! Funny how sleepy everyone seems after a whole week of rest.
- Jan. 4—Convocation. Rather a heated discussion. Student Body votes that Student Council president should be elected from the Senior College instead of the Senior Class.
- Jan. 5—Schedules for exams posted on the Bulletin Board. Midnight oil coming into prominence for a change.
- Jan. 6—Girls' basketball assured. Miss Van Voorhees selected as coach.
- Jan. 9—Scandal!!! Student Supply Store turned into a menagerie over weekend.
- Jan. 10—Dramatic Association busy putting finishing touches on the plays.
- Jan. 11—Convocation. Presentation of "Heirs-at-Law". Thrilling, to say the least.
- Jan. 12—Presentation of the other play, "Neighbors", at night convocation. Day students invited.
- Jan. 13—Two basketball games:

T. U. vs. Bluffton

19 18

—We told you so!

Frosh vs. Soph

14 2

—What a pity!

Jan. 14—Second presentation of "A Pair of Sixes" by the Blackfriars.

Jan. 16—Our "Day of Doom" has arrived. Exams begin today.

Jan. 17—Sh!—Don't tell anyone, but—Louis Jodry has been married since last July.

Jan. 18—More exams. Heidelberg 32, T. U. 16. Too bad.

Jan. 26—Beginning of second semester.

Jan. 27—Heidelberg 27, T. U. 4; at Tiffin.

Jan. 28—Defiance 18, T. U. 14; at Defiance.

Jan. 30—Steady stream to the Book Store. Our poor pocketbooks.

Jan. 31—Concert given by Vocation Club in Room 102 enjoyed by all during noon hour.

* *

Not from T. U.

"I say, porter, did you find fifty cents on the floor this morning?"

"Yes, suh. Thank you, suh."

* *

Mr. Randall—"How long has your son been in school?"

Mr. Skilliter—"About a check book and a half."

* *

Humorous Clothes

"I can't find any old clothes for my scarecrow," said Mr. Stick.

"Use some of the fancy things Gib brought home from college," replied Mrs. Stick.

"I'm trying to scare crows, not make them laugh."

* *

"Does anyone think that your son has a future?"

"Yes," replied Mr. Walters, biting the end off his cigar, "The life insurance companies."

FEBRUARY

- Feb. 1—Room 102 scene of a jolly noon hour.
- Feb. 2—Ground hog's day. He saw his shadow all right.
Announcement of plan for recreation room.
- Feb. 3—Organization of Men's Association.
- Feb. 4—Basketball: T. U. 25, Western Reserve 36. Too bad, but never mind, we'll win next time.
- Feb. 6—Sh!! Dancing in Room 102.
- Feb. 7—Jeannette Nuneviller appears with her hair bobbed. They all flop sooner or later.

- Feb. 8—Mayor Brough addresses students at convocation.
Everyone takes entrance pledge.
Basketball: T. U. 19, Bowling Green 14; there.
Special car takes crowd of rooters to see them win.
Glee Clug sings at Delta.
- Feb. 9—Everyone happy and tired from the exciting evening the preceding night.
- Feb. 10—Christel Hiss elected head of Association of Girls' Athletics.
- Feb. 11—Toledo U beats Findlay five, 22-20.
Vocalion Club gave a program at the Lions Club.
- Feb. 13—First noonday dance. Music furnished by the University Orchestra. The dance was well attended.
- Feb. 14—Valentine's Day. No holiday, to everyone's disappointment.
- Feb. 15—Presentation of "Heirs-at-Law" at the Auto Show.
- Feb. 16—Second Annual subscription payment due. Have your money ready, please.
- Feb. 17—Joint program of the Dramatic Association, Men's Glee Club, Vocalion Club and Orchestra. Proceeds to be divided among the four organizations.
- Feb. 18—Basketball: T. U. 23, Bluffton 25. Thrilling overtime game. Girls also lose to Bluffton girls, 11-6.
- Feb. 20—Organization of graduate students.
- Feb. 21—Queer how one of the girls' lockers likes to roam.
- Feb. 22—George Washington was good enough to give us an excuse for a holiday.
Here's a toast to Georgie!
- Feb. 23—Sigma Orchestra entertains the students at convocation. Some jazz.
- Feb. 24—Alpha Chi Omega fraternity gives a dance for the Greek letter organizations.
Dramatic Association and Vocalion Club gave a program at the Readers' Dramatic Club.
- Feb. 27—Carnival committee begins work.
- Feb. 28—Another month gone.

MARCH

- March 1—And another one begun.
 March 2—Ah-ha!—Gert Simpson blossoms out with a Sigma pin. Wonder where she got it.
 March 3—Basketball: Girls'—T. U. 15, Detroit Juniors 28.
 Boys'—T. U. 11, Defiance 25.
 March 6—Woman's Association lunch in the Cave.
 March 7—Did you see the leopard spotted cat in the Cave? No wonder the mice fled—it's enough to scare anybody.
 March 8—"U" Glee Club sings at Broadway M. E. Church.
 March 9—Nothing exciting happened today.
 March 10—Frosh Hop held at the Collingwood. Everyone enjoyed the dance.
 March 13—Sigma Smoker.
 March 14—T. U. reception for High School Seniors at the Woman's Building. Crowds and then some.
 March 15—"U" Glee Club sings at the Plymouth Congregational Church.
 March 16—Well, I declare! If the Cavemen haven't rejuvenated. Aren't they a proud lot with their mottoes and methods.

- March 17—"The Wearing of the Green."
 Girls' basketball: T. U. 7, Detroit Juniors 31.
 March 18—Phi Kappa Chi banquet.
 March 20—Everyone getting ready for the Carnival.
 March 21—What ho! The Amazons.—Mystery.
 March 22—"U" Glee Club sings at Perrysburg.
 Dr. Meek, superintendent of the Public Schools, addresses students at convocation.
 March 23—Pi Deltis give an exceedingly entertaining play at convocation.
 March 24—College Carnival. Holiday from classes, but not from work. Everyone excited.
 March 25—Second night of the Carnival. Some crowds and some success.
 March 27—Vocalion Club sings at Lutheran Church.
 March 28—Another one—The Shifters. What next?
 March 29—University now listed among the best. It is now a member of the North Central Association of Colleges and Secondary Schools.
 March 30—Quibblers' Day at convocation.
 March 31—Now it comes out Kenny Cosgrove is revealed as the un-kissed youth of Toledo University. Look out, Kenny, the girls may get you yet.

Jim Webb won a bet from Burton Ford last week about how many vowels there are in poker. Burt bet there were only two, and Jim said, "How about IOU's?" Jim won.

* *

The Silly Age

Leo—"You promised to love, honor and obey me."

Ruth—"Yes, but I was at that silly age when a girl will promise anything to get a husband."

* *

Censored

Gert Simpson was required to write 200 words about a motor car. She submitted the following: "My uncle bought a motor car. He was out riding in the country when it busted going up a hill. The other 180 words are what my uncle said when he was walking back to town, but I know you wouldn't want me to repeat them."

Co-eds certainly do roll other things besides their eyes, stockings and cigarettes. When a co-ed reached into her pocketbook and pulled out a handful of small change to pay for her java and jelly balls last week in the dugout, she accidentally drew out a pair of dice.

Real Joy Ride

"What sort of a time is your friend having on his motor tour?"

"I don't know. I've had only two letters from him—one from a police station—and the other from a hospital."

DO YOU REMEMBER THESE DATES?
[177]

The Tell-Tale Inventory

Judge Cohn, dean of the Law School, tells this story:

A bailiff went out to levy on the contents of a house. The inventory began in the attic and ended in the cellar. When the dining room was reached, the tally of furniture ran thus:

"One dining room table, oak."

"One set of chairs (6), oak."

"One sideboard, oak."

"Two bottles of whiskey, full."

Then the word "full" was crossed out and replaced by "empty", and the inventory went on in a hand that straggled and lunched diagonally across the page until it ended with:

"One revolving door mat."

* *

A Good Cure

A tramp wrote the following letter to a medicine concern, after he had been sentenced to three months' work on the road for stealing six bottles of their "Nerve Tonic":

"Gentlemen: Before taking your nerve tonic I had not done an honest day's work in ten years. I took six bottles and now I am working steadily every day."

* *

OUR FACULTY

Who forces us to work like sin,
Until we wax both wan and thin,
To hand some pesky papers in?
Our energetic Faculty.

And when our work is all complete,
Who tramples on it with both feet,
And says, "Ill-written, please repeat"?
Our very captious Faculty.

Who is it, when we flunk a class,
Informs us that they will not pass
Us, and that we'll be canned? Alas!
Our most despotic Faculty.

Who has a very tiresome way
Of airing hobbies every day?
We know just what each one will say.
Our soporific Faculty.

When we seek in time of need,
Who to our wants give thoughtful heed,
And maybe hand us out a feed?
Our philanthropic Faculty.

And later, if success we've had,
Who is so genuinely glad?
We realize what friends we had,
Our dear old friendly Faculty.
—Anonymous.

Leak Somewhere

Gibbs—"We can't accept this poem. It isn't verse at all; merely an escape of gas."

Ethel Kuhlman—"Ah, I see; something wrong with the meter."

* *

Careless of Him

"Terribly rough," said the stranger on board the ocean liner.

"Well," said the farmer, "It wouldn't be near so rough if the captain would only keep in the furrows."

* *

At the Carnival

"What's the charge officer?"

"Vagrancy, your honor. He was loafing around a street corner."

"Ah, impersonating an officer."

It Happens Once a Year

It's an Ill Wind, Etc.

Ken Ward: "I have just heard of a woman who went to a hotel unaccompanied and discovered that the acoustic properties of her room were such that every time she spoke aloud there was an echo. She then made a bold attempt to get in a last word and talked herself to death."

Their Taking Ways

A stranger reported to Sergeant Kruse that he had his grip, coat, and umbrella taken before he was in town two hours, and he said, "There will be an awful reckoning in this town when Gabriel blows his horn, over it."

Kruse replied: "Gabriel will never blow his horn over this town; they'll steal it before he gets a chance to blow it."

"Did the traffic cop arrest you?"

"Twice," replied Hoover, as he inspected his complicated vehicle. "When I couldn't stop he arrested me for speeding, and when I finally stopped and couldn't start he arrested me for blocking traffic."

* *

At "Pair of Sixes" Performance

Mrs. Stowe—"Bob, will you please run up the curtain?"

Bob S.—"I'm not in very good training, but I'll try."

* *

As Angels Do

Prof. Troxell—"When I married you I thought you were an angel."

Mrs. Troxell—"It's quite plain you did. You thought I could manage without clothes or hats."

* *

Sure to Be Light

"I think you need more footlights on the stage," said Chuck Beard who had hired the hall for the performance.

"Oh, you'll find the house light enough when you come to give your show. I reckon," replied the man who owned the hall and knew the town.

A hand-embroidered sponge will be given to the one who guesses who this Frosh is.

Two farmers met on a country road and stopped their teams.
 "Si," said Josh, "I've got a mule with distemper. What did you give that one of yours when he had it?"

"Turpentine, giddap."

A week later they met again.

"Say, Si, I gave my mule turpentine and it killed him."

"Killed mine, too, giddap."

Good Cause for Nerves

Bob M.—"You don't know how nervous I was until I proposed to you."

Louise—"You don't know how nervous I was until you did."

* *

Remarkable Feat

"BELIEVE DEAD WOMAN
 JUMPED FROM TRAIN"

—Headline in the Morning Times.

* *

Social Benefactor

Ruth Bishop—"What good are you at a party?"

Russell Brown—"I can talk to the people who can't sing, and want to sing, and prevent 'em from doing it."

YEARS AGO the farmers of the Kimberley district in South Africa complained about the rocks in the fields that turned the edge on their plows and made it almost impossible for them to make a living out of the land. Their children played with the pretty stones. These rocks contained diamonds which established such great fortunes as that of Lord Cecil Rhodes.

Thus countless opportunities are passed up by the unobserving. The following pages are full of such opportunities. Take advantage of them while the time is ripe.

FATAL TO FLIES
AND OTHER INSECTS

Active
Ingredients
100%

Keep
Away from
Flame

Kills Flies, Mosquitoes, Roaches, Moths,
Bed Bugs, Ants, Weevils, Fleas, Lice.

Harmless to Man, Fowl and Beast.
Will not stain. Pleasant odor. Easily
applied with an ordinary garden sprayer.

1 Against FLIES and MOSQUITOES.
Close the windows and doors and spray
REX FLY-TOX into the air in all di-
rections, especially upwards. Then
watch them gather at the windows and
drop dead every last one of them. They
have been killed by asphyxiation, same
as being gassed. A room full of Flies
or Mosquitoes can be killed in about five
minutes. No unpleasant odor—no muss
—no danger.

We manufacture a complete line of
insecticides and fungicides—a spray for
every purpose.
